

The Camps and Hunting

The camps are accessed by jet boats up glacial rivers.

The camps consist of both cabins and/or just wall tents.

Both cabins and wall tents are propane heated

.

Generally there are 2 beds per wall tents.

Because the tents are heated you only need a moderate sleeping bag, good to around 40 f .

In the camps we have a central cook and dinning tent.

The days will start with a cooked breakfast and finish with a cooked supper.

Many of the meals utilize local fish and game
