

Additional Information

Getting to Greenland

The fastest way to Greenland is through Denmark because of the direct flights from Copenhagen to Kangerlussauq. There are flights from Iceland, but they depart in the evening and require at least one stop in Greenland prior to the flight to Kangerlussauq.

I have found the best flights to Copenhagen are Icelandair, WOW airlines, SAS Norwegian air. They are normally \$600-1000 round trip.

*Remember most USA flights to Copenhagen depart in the evenings (with a 6 hour time difference) and flight times from the East Coast are about 7-8 hours.

You will arrive in Copenhagen after a quick stop in Reykjavik Iceland or other European cities about 12 noon. Thus having to stay overnight in Copenhagen.
